Description

The over the hub exhaust style cleaver propeller, inspired from racing, are designed to run at the water surface for maximum efficiency. They work best on 150 - 300 HP outboards with lightweight hulls which have natural bow lift.

The 3 blade Cleaver is offered in two versions, Pro Finish and Lab Finish. Pro Finished models, featuring 15" diameter, stout blades (compared to Lab Finish), durable leading edges, high luster, designed for high horsepower. The Pro Finish keeps you in mind for your every day go fast prop.

Lab Finished models, feature thinner blades (compared to the Pro Finish), crisp leading and tight trailing edges, are designed for light weight boats with natural bow lift. The Lab Finish is your prop of choice for flat out running.

SPECIFICATIONS

Diameter 14.50" & 15" (15" in Pro only)

Pitch 28" - 34"

Rotation LH & RH

Finish Pro or Lab

APPLICATIONS

- Designed to run 80+ MPH with little bow lift
- For 150 - 300 HP outboards, Vee & air entrapment hulls
